Tata Termite Solutions

TATA TermeX

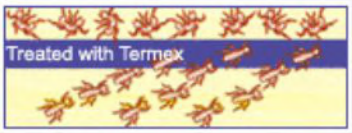
Protect from **Termite**, bring your house & infrastructure safe.

Introduction

It is a new generation Termiticide that contains Imidaclorpid 30.5% SC. It is a systemic insecticide for control of termites in buildings, which can be, used both for pre and post construction treatment. It is first non-repellent liquid Termiticide with a unique mode of action to control even toughest subterranean termite infestations through a process called "Lateral Soil Movement". Lateral Soil Movement ensures no contamination of underground water.

Packs: 50ml, 250 ml, 1 litre & 5 litres.

- **Unique features**
- A derivative from Imidaclopid. the latest and fastest growing molecule with lethal action on termites
- Indigenously developed, manufactured & marketed by Rallis, a trusted name in Pesticides for the last 5 decades.
- A non-repellent systematic & contact insecticide.
- Depending on soil moisture, spreads in all directions by a process called 'Latest Soil Movement', ensuring thorough soil coverage with no gaps.
- No smell. pollution or contamination of underground/well water. Completely safe, having low toxicity towards people & pets.
- Ensures nil or minimal re-treatments (<1.0%) during the first five years if treatment is carried out as per recommendations.



Biflex TC Insecticide/Termiticide

Protection with **Responsibility**.

Introduction

Biflex TC is the world's most advanced chemistry to protect structures against termites is now available in India. Biflex offers the longest protection period against termites in a safe, environment friendly and 'green' fashion. Biflex creates an invisible termite barrier that will give you peace of mind that comes only in knowing your investment has been protected professionally with the best termiticide treatment available.

Biflex TC
The genNext termiticide that repels strongly AND kills promptly

Double action protection

Biflex TC solves your **termite problems** in two ways. Not only does it work quickly to **KILL ACTIVE TERMITES**, it also creates an invisible protective barrier that surrounds your home to **REPEL TERMITES.**

Some Termiticides only kill termites when they penetrate a chemically treated zone as they move towards a structure. With Biflex TC termiticide, the active ingredient prevents termites from crossing the barrier AND kills them on contact. The advantages of a repellent barrier vs. non-repellent zone are obvious.

Even when a Biflex TC termiticide barrier becomes thin or weakened over time, it will still provide protection since it reduces the pressure of the attack through repellency and hence termites do not challenge the barrier. However, termites will challenge and may penetrate a thin or week non-repellent treated zone.

MAPEI®
ADHESIVES SEALANTS CHEMICAL PRODUCTS FOR BUILDING

Mapei Construction Products India Pvt Ltd

Mapei products offer clients the most specific & most advanced solutions in the world of building. Users of Mapei products can see for themselves, day after day, how this choice leads to optimising work, maximum application yield and perfect results, under all conditions. Mapei is not just a supplier; they are also a partner for all those who operate in this sector with a comprehensive range without rivals. We, at **Bharti Care** are the distributor of Mapei brand inthe product segments of construction chemicals and adhesive related products.

Mapei's Construction Chemicals:
Mapegrout Thixotropic, Mapegrout T40/T60/T80, Mapegrout SV, Mapefill 06, Mapegrout Hi-Flow B2/Easyflow IN, Mapelastic, Mapelastic Smart, Nivoplan, Mapefill GP IN, Plaingrout 300, Mapefill HS IN, Epoject LV, Epoject SLV, Eporip, Mapefer, Mapeshield I, Mapeshield E25, Durasil EB, Mapewrap-G Quadri-AX, Mapewrap S Fabric 2000, Mapewrap G Uni-AX, Mapewrap S Fabric 650, Mapewrap S FIOCCO, Mapewrap Primer 1 SP etc.

Mapei Adhesive Products Range

KERASET GREY
Cementious adhesive for ceramic tiles

KERABOND PLUS (WHITE)
Easily trowellable cementitious adhesive with superior bond strength, low slump and high initial grab suitable for most types of ceramic tiles and stone material.

ADESILEX P9 (GREY)
Cement based adhesive with good initial adhesion strength and no vertical slip for ceramic tiles.

ADESILEX P10 (WHITE)
High performance white cementitious adhesive, with no vertical slip and extended open time for glass, ceramic and marble mosaic.

KERAFLEX MAXI S1
High performance, deformable cementitious adhesive with extended open time and no vertical slip.

MAPEFLEX AC-P
Paintable acrylic sealant with a render-effect finish for movements up to 12.5%.

MAPEFLEX MS CRYSTAL
Elastic high modulus, flexible, crystal clear, paintable, hybrid sealant & adhesive.

MAPEFLEX BLACKFILL
Bituminen sealant

MAPEFLEX FIRESTOP 1200°C
Refractory grout

MAPEFLEX Ms45
Paintable hybrid sealant and adhesive.

Kerakoll India Pvt. Ltd.

KERAKOLL
The GreenBuilding Company

To represent GreenBuilding, the new low environmental impact approach to building that safeguards the health and well being of people.
We think, develop and produce innovative solutions that focus on the environment and on improving both health and quality of life by using eco-friendly and naturally breathable building materials that avoid the most common illnesses caused by indoor pollution.
Our vision is to interpret GreenBuilding as a new way of building that is kind on the environment, promoting higher quality homes around the world and helping people to live better.

Building today is a key factor in global sustainability problems like:
it generates 40% of CO2 emissions, **Kerakoll's** climate friendly technologies can help to create healthier and more pleasant places to live and work in by playing an active role in reducing CO2 emissions

Kerakoll's Products:
Aquastop Nanoflex
H40 No Limits
Fugalite Eco
Alkaline Hydrolysis

Kerakoll Adhesive Products Range

The first ever breathable, anti-alkaline and chlorine-resistant waterproofing membrane

H40 NO Limits

Highly flexible, multi-purpose, structural adhesive to fix fully vitrified tiles and natural stone of all types and size.

Features & Advantage

Internal and external use, Long open time.
Internal and external use, Long open time, Free flowing, no SAG, Water Resistant, Up to 15 mm thickness.

Kerakoll Bioflex

Flexible mineral adhesive to fix vitrified tiles & Natural stones.

Features & Advantage

Highly polymer-modified, Thicknesses up to 15 mm

Termite Pipeline

We at "Bharti Care" have a solution to keep your home and place safe from Termite. We deal in termite Pipeline solution with high quality work.

It is a unique method of filling the chemicals through the already laid pipelines. which will prevent the structure as well as furniture, wooden fixtures from termites attack. This placement of perforated pipes (made of UPVC) is done along the flooring just before laying of the sand bed/ sub grade or before fixing the floor marble / tiles. This perforated pipes has emitters fabricated in tem which allow uniform distribution of termiticide under the entire flooring. These emitters distribute chemical at a pre calculated rate and reduce the risk of any area being untreated. Use of continuously perforated porous pipe ensure no debris, clay or concrete will block the pipe and make it ineffective.

ARDEX ENDURA

Construction Chemical:

Tiles & Stone installation, Waterproofing Systems, Flooring Solutions, Concrete Repair, Anchors & Grouts, Decorative Finishes

Tile Grouts:-Cement Polymer Grouts, Super Grout, Epoxy Grout, WAD

Concrete Repair & Ancillaries:-E160, E135

Grout & Anchors:-B30, ACF8

Tile & Stone Care-Cleaners:- CP Fitting & Sanitory Cleaner (I), Non Acidic Cleaner

Tile & Stone Care-Sealer:- Under Tile & Stone Primer, FC SS

Water Proofing Systems:- WPM 004/002/310/810

Adhesive Product Range

Silver Star
(polymer modified tile adhesive)

Gold Star
(high polymer modified, cementitious tile/ stone adhesive)

White Star
(white cement based, high polymer modified tile/ stone adhesive)

Diamond Star (Grey/ White)
(high performance, polymer modified, non-slip adhesive)

Platinum Star
(premium quality, high polymer modified deformable adhesive)

Flex
(two components flexible tile/ stone adhesive for wood & metal surface)

Admix Ad1
(Liquid polymer, additive for use with cement based adhesive)

The perfect place for all your termites, construction chemicals, water proofing, tiles and stones adhesive, epoxy and flooring related requirements.
